Denbigh West, Bletchley
Milton Keynes MK1 1SU

10th February 2015

Dear Sir or Madam,

Based on our recent installation of a mezzanine floor here at L C Signs, I would like to take this opportunity to thank Pat Booden and Simon Bateman for a professional and friendly service.

We can clearly see what a difference a Stodec mezzanine floor makes!

I initially posted an enquiry on the Stodec website and received a call from Pat Booden already the same day. He then visited our company the following day to take measurements and details in order to provide a quotation. The whole process was smooth and very quick and we were kept informed the whole time.

Only a few weeks from placing the order for our mezzanine floor we received an installation and completion date from Pat Booden and Simon Bateman – which we certainly appreciated as we required planning for moving tools and machines.

The installation team was also professional and very efficient during the only 2 days it took for putting up the mezzanine floor.

A huge thank you to the guys mentioned for a super service – I will most defiantly recommend Stodec Products to contacts in our industry.

Yours sincerely,

A handwritten signature in blue ink, appearing to read "Mette", is written over a faint circular stamp or watermark.
